

Record Sheet 2 - Declaration of Non-Genetically Modified Content

To be used by the suppliers of non-organic products

The EC Regulation (EEC) 2092/91 and the Defra Compendium of UK Organic Standards prohibit the use of genetically modified organisms (GMOs) and their derivatives in organic production systems and processed foods.

As a supplier of non-organic raw materials, ingredients, additives and processing aids intended for use in organic production and processing, you are asked to confirm that the materials or their derivatives are not produced from genetically modified organisms.

I hereby confirm that, to the best of our knowledge, the following product(s)

Product(s):	Batch/consignment details:

has/have been produced without the use of genetically modified organisms or their derivatives, that all reasonable steps have been taken to avoid any possible contamination from genetically modified organisms or their derivatives and this has been confirmed by the following measures:

known non-GM varieties of plants: (specify varieties)	
traceability through identity protected (IPS) distribution systems:	
independent audit: (specify certification body)	
equivalent declaration from previous supplier: (supply copy)	
PCR testing for GMO indicators: (give frequency & limits)	
other method: (specify)
