

<b>OF&amp;G Quality Manual</b>	<b>RD231 Producer Conversion Plan and Inspection Form 11 – Pig Production</b>
Linked Documents:	

**To be completed by all pig producers**

<b>Name of Producer</b>		<b>Registration No.</b>	
-------------------------	--	-------------------------	--

<b>Pigs - Conversion and General Details</b>		<b>Producer's answers</b>	<b>Inspector's comments</b>	
11.1	Are the pork animals produced from breeding sows or brought-in as stores for finishing?			
11.2	Name any Quality Assurance Schemes that the herd is registered with.			
11.3	What is the breed of the herd/stores?			
11.4	Will the pigs be in simultaneous-conversion?			
11.5	When will the organic management of the herd begin?			
11.6	8.2.04 Will the herd occupy land subject to a derogation for a reduced conversion for non-herbivores?			
11.7	8.1.08 How many animals are to remain on the unit to be finished as non-organic during the conversion, how are they identified and how is verifiable on farm?			

<b>Pigs - Replacement Animals and Stock Movement</b>		<b>Producer's answers</b>	<b>Inspector's comments</b>	
11.8	8.2.08 How many fattening pigs will be brought in for finishing during and after the conversion period?			
11.9	6.3.05 Will the pigs be sent or sold elsewhere for finishing? If so how many?			
11.10	8.3.27 How many replacement sows or gilts are normally brought in annually?			

**Pigs - Feed**

<b>Pigs - Feed</b>		<b>Producer's answers</b>	<b>Inspector's comments</b>
11.11	8.4.16 When organic feeding of the herd commences will the pigs be fed within the 10% annual/25% daily DMI non-organic feed allowances?		
11.12	6.3.16 When organic feeding of the herd commences will feed records be kept to show the following: Constituents for each feeding group, Proportions: Organic, in-conversion and non-organic feed, Periods of access to the range (dates of turnout/housing), Sources of the feeds, Supplier's non-GM declarations?  <u>Please ensure copies of all feed labels for feeds currently being fed are available at the time of inspection.</u>		
11.13	8.4.36-.37 Are any mineral, trace element or vitamin supplements give to the pigs?  <u>If yes please list and ensure that a product label or specification sheet is available at the time of inspection.</u>		
11.14	8.15.10 Is forage provided for pigs at all times?		
11.15	8.15.04 If practical is the feed space divided so that each pig can be fed as an individual?		
11.16	8.15.04 At what age are the organic pigs to be weaned?		

**Pigs - Disease Prevention and Veterinary Treatments.**

<b>Pigs - Disease Prevention and Veterinary Treatments.</b>		<b>Producer's answers</b>	<b>Inspector's comments</b>
11.17	8.5.04 Will an Animal Health Plan that shows organic principles be established for the herd when organic management begins?		
11.18	8.5.04 Who will draw up the Plan and keep it up to date?		
11.19	8.15.06 Are prophylactic iron injections used?		

11.20	8.5.12 Are any herbal or homeopathic medicines to be used on the herd? If so clarify.			
11.21	6.3.15 When organic management of the herd commences will accurate veterinary records kept to show; Identity of animals, number and reason for treatment, Dates treatments started and finished, Product and quantity used, Withdrawal period and the earliest date of sale, Person who administered the treatment, treatments for internal parasites?			
11.22	8.6.11 Are any surgical operations carried out, e.g. tail docking?			
11.23	8.5.23 How will any pigs that have been treated with more than three courses, or pork animals (alive for less than 1 year) one treatment, of chemically synthesised allopathic medicines in the year, be identified to ensure that they are sold into the non-organic market?			

### **Pigs - Free Range and Livestock Housing.**

### **Producer's answers**

### **Inspector's comments**

11.24	8.15.10 Does the grazing provide plentiful vegetation when the pigs are moved onto the land?			
11.25	8.15.10 Are the pigs moved onto fresh ground once all the available vegetation has been cleared?			
11.26	8.8.10 Is the pasture that is used for pigs free draining or heavy?			
11.27	8.8.10 Are the pigs rotated with land used to grow arable crops?			
11.28	8.8.10 Is land used by the pigs more than 2 years in 4 on free draining soil, or more than 1 year in 3 on heavy soils?			

11.29	8.15.12 When housed outside on the range give the stocking densities for the following; Dry Sows Sows with litters Farrowing Sows Service Pens	M <sup>2</sup> per sow M <sup>2</sup> per sow and litter M <sup>2</sup> per sow and litter M <sup>2</sup> per sow and boar		
11.30	Are finishing pigs provided with the area listed in 8.8.26?			
11.31	Are pigs housed in the winter or do they live outside all year round?			
11.32	8.8.06 When the pigs are housed for finishing, does this exceed one fifth of their lifetime (other than when housed for winter)?			
11.33	8.15.13 What is the maximum number of sows and progeny in any one group?			
11.34	8.15.13 At weaning what is the maximum number of piglets in a group?
