Reduce your inspection costs with SAI Global and OF&G

SAI Global and Organic Farmers & Growers are delighted to announce a ground-breaking offer to cut the fees and save time for joint BRC and organic inspections.

A longstanding partnership between the two bodies has been offering the convenience of combined inspections for a number of years, keeping the number of inspector visits and paperwork to a minimum.

Now we are pleased to be able to take the benefits one step further; every licensee who requires joint BRC/organic inspections can benefit from a 5% discount off each part of the process. That's a 5% reduction in the BRC fee, PLUS 5% off the cost of the organic inspection.

In addition you get the benefit of one inspector and one inspection for both schemes saving you time as well as money.

Powerful partnership

SAI Global and OF&G are leaders in their respective fields and are both fully accredited with UKAS, providing high quality customer service and professionalism combined with the understanding that you have a business to run.

And with a newly streamlined application process OF&G is the logical choice for no-nonsense organic certification.

OF&Gs' friendly certification team are all experienced in food and farming, meaning they talk your language and understand the imperatives of business. Now our powerful partnership with SAI Global allows us to bring even greater benefits to your business, right where it matters most – in the budget!

Talk to us today about your certification needs and how to save 5% off BOTH your organic and BRC inspection costs.
